

Dj Mizzy®

BIO

Dj Mizzy, born Claudel Larose is an international dj and producer from just outside New York City. He is known by many for his storyline sets & has been performing over 15 years. Having traveled to over 20 countries, with the weapon of choice being the original Technic SL1200 turntable, his love and passion for mixing, scratching, and blending music has allowed him the ability to take crowds on a journey with his eclectic sounds. He has a number of specialties but has taken a special liking to the deep house genre. After performing over hundreds of shows and traveling the world, Mizzy decided to build his own studio and produce his own sounds. Be on the lookout for his new releases coming soon. For bookings contact DJMizzy@gmail.com and also check out www.djmizzy.com for live audio recordings & downloads! Stay tuned and feel the music!
